

February 2021 - So how are we doing? Compared to Israel and the UK (with substantially smaller populations) – not as well as we would like, but many are struggling with some of the same logistical issues we are having here. For complete coverage on the vaccine globally, refer to our COVID-19 Resources: [CLICK HERE](#)

Race to End the Pandemic

Doses administered per 100 people

Note: Two doses are needed for full protection with the vaccines currently in use. Data from Bloomberg's Covid-19 Vaccine Tracker
